HERE'S HOW IT WORKS:

1. NMIC is not a stock or a mutual fund. It is a simple uncomplicated investment.
2. Investors place Cash in NMIC. NMIC then place the funds in quality short term Canadian mortgages. These mortgages generate the cash that produces regular income and growth for investors.
3. NMIC pays a fixed monthly return to investors over the life of the investment. The return does not fluctuate and is not subject to changing market conditions.
4. The security for all NMIC investments is valuable CANADIAN real estate property.
5. NMIC's management are experienced professionals in the important fields of real estate, commercial and mortgage financing, brokerage, development, leasing, construction, accounting and finance, and administer all the mortgages on behalf of the investor.
